

disaggregate their spectrum blocks, if partitioning and disaggregation are allowed. This proceeding proposes only to allocate the 3650–3700 MHz band to the non-Government fixed service generally. A future proceeding will address service rules specifically, and we will address small business concerns at that time. We invite comment on this analysis.

Description of Projected Reporting, Recordkeeping and Other Compliance Requirements

27. Rules that may apply to the licensing of these operations or other operating requirements will likely be addressed in a separate rule making proceeding and any reporting, recordkeeping and other compliance requirements will be addressed therein.

Significant Alternatives to Proposed Rules Which Minimize Significant Economic Impact on Small Entities and Accomplish Stated Objectives

28. No Petitions for Rulemaking were filed to initiate this proceeding and there are no comments in this proceeding that suggest alternatives to this proposed allocation and associated technical requirements. We request comment on alternatives that might minimize the amount of economic impact on small entities.

Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

29. None.

National Oceanic and Atmospheric Administration

50 CFR Part 648

[I.D. 010599A]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Public meeting.

SUMMARY: The New England Fishery Management Council (Council) will hold a 2-day public meeting to consider actions affecting New England fisheries in the exclusive economic zone.

DATES: The meeting will be held on Wednesday, January 27, 1999, at 9:30 a.m. and on Thursday, January 28, 1999, at 8:30 a.m.

ADDRESSES: The meeting will be held at the Sheraton Harborside Portsmouth, 250 Market Street, Portsmouth, NH 03801; telephone (603) 431–2300. Requests for special accommodations should be addressed to the New England Fishery Management Council, 5 Broadway, Saugus, MA 01906–1036; telephone: (781) 231–0422.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone (781) 231–0422.

SUPPLEMENTARY INFORMATION:

Wednesday, January 27, 1999

The meeting will begin with reports on recent activities from the Council Chairman; the Executive Director; the NMFS Acting Regional Administrator, Northeast Region; Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons; and representatives of the Coast Guard, the Atlantic States Marine Fisheries Commission, and the U.S. Fish and Wildlife Service. Following reports, the Chairman of the Whiting Committee will ask for approval of descriptions of measures and the summary of impacts for final submission of Amendment 12 to the Fishery Management Plan (FMP) for the Northeast Multispecies Fishery. Following the Scientific and Statistical Committee's review, the Dogfish Committee will seek approval of an overfishing definition, of a stock rebuilding schedule, and of the Spiny Dogfish FMP for submission to the Secretary of Commerce.

During the afternoon session, the Council will continue its discussion on dogfish and possible approval of a recommendation for emergency or interim action to become effective by May 1, 1999. The Social Sciences Advisory Committee will report on recommendations on information to be included in the Stock Assessment and Fishery Evaluation reports and the social and economic impacts analyses included in the Council FMPs. There

will be a Stock Assessment Public Review Workshop on the status of Cape Cod yellowtail flounder, white hake, Georges Bank winter flounder, American plaice and Southern New England/mid-Atlantic winter flounder.

Thursday, January 28, 1999

The Council will take final action on Framework Adjustment 27 to the Northeast Multispecies FMP. Management measures in Framework Adjustment 27 would reduce fishing mortality on Gulf of Maine cod and Georges Bank cod to achieve the 1999 fishing year rebuilding objectives and might include area closures, trip limits, adjustments to days-at-sea, or gear/mesh modifications. During the afternoon session, the Groundfish Multispecies Committee will consider recommendations on priorities for Council action during 1999 to address latent fishing effort/permits, employment of displaced fishermen in scientific/gear research programs under economic assistance programs, changing the annual Northeast Multispecies FMP adjustment schedule to a calendar year, and/or other measures to address overfishing of identified stocks. The Council also intends to approve initial action on a framework adjustment to the Northeast Multispecies FMP that would adjust regulations to comply with the Harbor Porpoise Take Reduction Plan. Discussion of any other business will take place before the close of the meeting.

Although other issues not contained in this agenda may come before this Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 8, 1999.

Bruce Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries.
